

NORTHERN ATHLETE SHOWCASE

FUNDED BY

SAGE ROBERTS

My name is Sage Roberts and I'm currently playing hockey with the Sioux Lookout Bombers. I was born in Prince Albert but, lived mostly in the Lac La Ronge Indian Band where my parents still live today. I'm currently 19 years of age.

I started into the sports of hockey, softball and golf, at a very young age, in fact I started hockey at the early age of 4. I would say, my dad had the biggest effect on my sporting career and getting me started. Whether that was driving me to practice and games, supporting me financially and allowing me to participate as much as I could. I had a great collection of coaches that I would like to recognize in hockey and softball throughout the years.

My role models remain my mom and dad, my late Uncle Terry "Babs" Isbister and many other family members. Family is very important to me and I'm thankful for all the supportive role models within my family.

Some of the achievements that I would like to share are making my hometown SJHL, La Ronge Ice Wolves Hockey team in 2023, national events playing hockey and softball for NAIG Team Sask and the National Aboriginal Hockey Championships. All these events were made possible by the people that supported me along the way and especially my dad for all the hours getting me to these great events.

My future goals are to continue to play at the junior hockey level and contribute in any way possible with my current team, the Sioux Lookout Bombers. To continue to play softball at a high level, attend tryouts this winter for the Canada Games in softball, and hopefully represent Team Sask in Indigenous competitions. Additionally, I want to play golf and enjoy living in Northern Saskatchewan visiting family and friends whenever I can.

Presently, I'm finishing my education and playing Ontario junior hockey. My advice to any youth in Northern Saskatchewan trying to get to a high level in sports is to focus on your education, practice hard, and believe anything is possible if you put your mind to it.
